Why should I worry
When I know you're loving me
Why should I care when
There's joy everywhere

Why can't I see the
Beauty of the light

Somebody I trusted
Somebody I knew quite well
Somebody I loved

Please don't put out the light
(Put out the light)
Turn the day into night
(Put out the light)
Put out the light
(Turn the day into night)
Turn the day into night
(Hey, hey, hey, yeah)

I got this good old melody
I think it's making me blue only
Then I hear the symphony
That's what I get and that's what's
Been taken out the best of me

Hey, hey, hey, yeah
Hey, hey, hey, yeah

Why should I hurry
I do the best I can
Do what I do and
I hope you understand

Why can't I see
The beauty of the light

Somebody I trusted
Somebody I knew quite well
Somebody I loved

Please don't put out the light
(Put out the light)
Turn the day into night
(Put out the light)
Put out the light
(Turn the day into night)
Turn the day into night
(Hey, hey, hey, yeah)

Please don't
Somebody I trusted
Somebody I knew quite well
Somebody I loved

But please don't, please don't
Please don't put out the light

Put out the light
Hey, hey, hey, yeah

Put out the light
Don't put out the light
Put out the light
Don't put out the light

Put out the light
Don't put out the light
Put out the light
Don't put out the light...
