### "Something To Say"

Visit "[Something To Say](#)" on [MotoLyrics.com](http://MotoLyrics.com)

And so, what can I say, I thank you, dear  
To share the few things you have  
And oh, I'd like to say, I'm glad you're here  
And hope your leaving is not sad  
Soon I'll have to go an' get back on the road  
Then I'll have no reason left at all

In times it's hard to say the things I feel  
To wonder while I've known so long  
Oh, you still remain so sure and real  
But ev'rything is going wrong  
But soon I'll have to go an' get back on the road  
Then I'll have no reason left at all

Oh, have you somethin' to say, say it for me, please  
Oh, have you somethin' to say, say it before I leave  
Oh, have you somethin' to say, say it from your heart  
Oh, have you somethin' to say, say it before I part

And so, what can I say, I thank you, dear  
For sharing up the few things you have  
And oh, I'd like to say, I'm glad you're here  
And hope your leaving is not sad  
Soon I'll have to go an' get back on the road  
Then I'll have no reason left at all

Oh, have you somethin' to say, say it for me, please  
Oh, have you somethin' to say, say it before I leave  
Oh, have you somethin' to say, say it from your heart  
Oh, have you somethin' to say, say it before I part ....  
Oh let it roll, right from your heart now  
Oh let it roll, right from your heart now  
Have you got somethin' to say  
Have you got somethin' to say  
Have you got somethin' to say  
Let it roll, yeah ....
