

Joe Cocker "Space Captain"

Visit "[Space Captain](#)" on MotoLyrics.com

Once while was traveling across the sky
This lovely planet caught my eye
And being curious, flew close by
And now I'm caught here till I die

Until we die, until we die
We're just learning to live together
Learning to live together
Learning to live together till we die

I lost my memory of where I've been
We all forgot we could fly
Someday we'll all change to peaceful men
And we'll return out to the sky

Until we die, until we die
We're just learning to live together
Learning to live together
Learning to live together till we die

Until we die, until we die
We're just learning to live together
Learning to live together
Learning to live together ohh

We got to get in together
It's getting better and better
We got to get in together
It's getting better and better

Until we die, until we die
We're learning to live together
Learning to live together
Learning to live together

Learning to live together
Learning to live together
Learning to live together
Learning to live together till we die

Until we die, until we die
We're just learning to live together

Learning to live together
Learning to live together

Learning to live together
Learning to live together
Learning to live together
Learning to live together oh together now
