I Ain't Been Here Long  
I ain't sung my song  
But light the road and kiss me on my way  
About leavin' I ain't strong  
But darlin' before long  
You'll close your eyes and kiss me home to stay

I rolled down under a fat sun  
Just knowin' you're the one  
The miles were taken from me for a while  
But the one consolin' thought  
That my wheels a spinnin' caught  
Was the reassurance of your partin' smile.

I Ain't Been Here Long  
I ain't sung my song  
But light the road and kiss me on my way  
About leavin' I ain't strong  
But darlin' before long  
You'll close your eyes and kiss me home to stay
