Had enough...

Hey look a live, I'm coming down  
There's no one, could stop me now  
No riders please, no riding free

Just save your skin, one for me.  
I know not this, so close how can you miss

Had enough...

For the one and only Mona, I keep a place  
Deep down in my coat and hid be hind my face.  
Her tongue's fat as a thumb, her heart's a dime  
Pick your posion, leave me mine.

I know not this, so close how could you miss

How could you miss...

Had enought...

I still remember when your shoes were new  
When I could hold a spoon the way some people do

If this is our finish, lets begin  
Gabmble I would lose, guess I'd win.

I know not this, so close how could you miss  
I know not this, so close how could you miss

How could you miss...

Had enought...

Had enought...
