Raindrops fall from everywhere  
I reach out for you but you're not there  
So I'm still waiting in the dark  
With your picture in my hand story of a broken heart

Stay with me don't let me go 'cause I can't be without you  
Just stay with me and hold me close because I've built my world around you  
And I don't wanna know what is like without you  
So stay with me! Just stay with me!

I'm trying and hoping for the day that my touch is enough to take the pain away

'Cause I've searched for so long the answer is clear  
That when we are ok we don't let it disappear

Stay with me don't let me go 'cause I can't be without you  
Just stay with me and hold me close because I've built my world around you  
And I don't wanna know what is like without you  
So stay with me! Just stay with me!

I've searched my heart over so many many times  
No you and I end like no stars and light the sky at night  
Our picture ends up to remind me of the days  
You promised me we'll always be and never go away! that's why I need you to stay

Stay with me don't let me go 'cause I can't be without you  
Just stay with me and hold me close because I've built my world around you  
And I don't wanna know what is like without you  
So stay with me! Just stay with me!
