In competition  
Why are you in competition with me?  
We're not the same, you and me  
In a position  
You put me in a position my friend  
This signals the end

Oh, time of the chance, of the second chance  
I've always been by your side

In competition  
Why are you in competition with me?  
We're not the same, you and me, no  
In a position you put me in  
A position for the last time, my friend  
You crossed the line tonight

Oh, dance of the dance, of the second dance  
I never removed my hand from your side

You know she don't love you  
She has never loved you  
Please forgive me I don't love you  
I don't like you anymore  
She don't love you  
She has never loved you  
Please forgive me I don't love you  
I don't like you anymore

It's ok  
I'll see you tomorrow  
You know it's ok  
I'll see you tomorrow
