From time to time,
I'll meet the boys for one or two rounds
But, I don't mind lettin' somebody else close the bar
down
Most of my wilder days have come and gone
But, there's one habit I'm still depending on

Your love is the good kind of high
I'm gonna keep on 'til the day that I die
Just tryin' to drink it all up,
I'm never gonna get enough

So, go on fill it up to the top
I'll take all the hugs and the kisses you got
When it comes to your sweet love
I'm never gonna get enough

Jack and coke, and I'm sure I'll say something I'll regret
Jose Cuervo and I could wind up in my ole truck bed
So When I need a little something now
To pick me up and not let me down

Your love is the good kind of high
I'm gonna keep on 'til the day that I die
Just tryin' to drink it all up,
I'm never gonna get enough

So, go on fill it up to the top
I'll take all the hugs and the kisses you got
When it comes to your sweet love
I'm never gonna get enough

So, go on fill it up to the top
I'll take all the hugs and the kisses you got
When it comes to your sweet love
I'm never gonna get enough

Give me more of that good stuff
'Cause I'm never gonna get enough
