Into the sun in my glider  
There's a shadow beside her  
Up 'n' down through the blues  
Clouds give me my silent cues  
I'm up in my glider  
With a shadow beside her  
It begins to rain on her window pain  
Up in my glider  
There's no shadow beside her  
Thundering 'n' lightning  
Gettin' pretty frightenin'  
I feel like an outsider  
Then the sun shows through 'n' right on cue  
There's a shadow beside her  
Up 'n' down through the blues  
I'm up in my glider  
'N' I'm telling you boys there ain't no noise  
'N' me and my baby ain't never gonna bring my glider  
down
