Once upon a broken heart  
There's a time for love  
And a time the lover's part  
And it doesn't always work out.  
The way that we planned  
Did you really wanna know the way,  
That all the movies end?  
No

Mr. Moonlight won't you take the rain away?  
And leave me with the hope of a better day  
No, sunshine don't you let me frown  
I've heard the grass is always greener  
On the lover's side of town

Midnight picture show, and  
Love talk radio, just  
Doesn't quite make up for  
The ladies that I used to know  
And, well some they wish me well  
And some became my enemies  
And some I told to go to hell  
And some still haunt me in my dreams  
Some still haunt me in my dreams

Mr. Moonlight won't you take the rain away?  
And leave me with the hope of a better day  
No, sunshine don't you let me frown  
I've heard the grass is always greener  
On the lovers side of town  
On the lovers side of town  
Mmmmm

I am riding on the midnight train  
Not sure exactly why I came  
I am fine with just me and my guitar  
But sometimes I am wishing for a little more  
Just a little more

So little girl won't you sit by me?  
Over here

So I can whisper sweet nothings in your ear  
and I just  
Just wanna listen to what you have to say  
And we can tell the world that they can just fade away  
They can fade away

Mr. Moonlight won't you take the rain away?  
And leave me with the hope of a better day  
Ohhh, sunshine don't you let me frown  
Cause I've heard the grass is always greener  
On the lovers side of  
I've heard the grass is always greener  
On the lovers side  
I've heard the grass is always greener  
On the lovers side of town  
On the lovers side of town  
Ooooh, on the lovers side of town  
On the lovers side of town
