Don't you get in my way  
Cause I have made up my mind  
And don't you try and calm me down, no  
Cause I don't wanna become this type

We have been here so long  
And I can't stand to see your face no more  
And I just wish you'd leave me alone  
Darlin so I could get out your door

If you're looking for your stompin grounds  
hey love you better look around  
Cause I'm skippin' town

Well I ain't saying it's your fault now  
I'm just saying that we're through  
If I had to lay my finger down  
Oh you know it might be pointing to you

Cause all those fights that you pick  
And all those things that you say  
And all those times you made me cry, yeah  
Tell ya something, I won't be crying today

If you're looking for your stompin grounds  
hey love you better look around  
Cause I'm skippin' town

Why you takin my hand?  
Don't you hear me? Don't you understand  
That i'm leaving?

If you're looking for your stompin grounds  
hey love you better look around  
Cause I'm skippin town'
