I've got nothing left to say
About the trouble you caused me early that day.
I've got this thing, y'know,
Where do I begin?
My eyes distract you from the devil within.

You know me now
You can no longer make believe.
I'm every face you wish you'd never seen.
You can't run
You know you can't hide from me.
Close your eyes, let the voice inside tell you it's just a
dream.

It's not you, y'know
It's nothing that you've done.
It's just the need for me
To finally be someone.
Misunderstood, I'm selfish and so small
I can't do much
I can't do anything at all.

You know me now
You can no longer make believe.
I'm every face you wish you'd never seen.
You can't run,
You know you can't hide from me.
Close your eyes, let the voice inside tell you it's just a
dream.

So there you go
You're in my homemade private Hell.
Now you see the one thing,
That I do so well.
I only take from you,
The good things that I see.
And leave behind your
Monster memory of me.

You know me now
You can no longer make believe.

I'm every face you wish you'd never seen.
You can't run
You know you can't hide from me.
Close your eyes, let the voice inside you it's just a
dream.
