Stand near me baby
Trying to find myself
I'm looking at the window
Seeing no one else

I can't remember
Whether it's night or day
My mind is burning
And it don't feel right

No, I can't feel nothing!
I can't feel nothing! No! No!

Thinking of oceans
Birds in the sky
A feeling's coming
But it just ain't right

Sky's sliding at stars
Winking at the night
The orange world is sinking
Tomorrow's burning bright

I can't feel nothing! (x4)
