I gave you all of my love
But you treated me like a fool
I gave up the right for the wrong
Tryin to get along with you
When I wanted to hold you close, you gone always too
tight
Or you had some place to go - and listen to me honey

I'm walkin out the door, tellin you good-bye
I can't take it no more
It's your time to cry - it's your time to cry

Oh, I tried to stay with you because of our kids
But you just wouldn't do right
You leave home late in the morning
I wouldn't see you till late, late at night
Baby, also I still love you I'm afraid to survey
I cannot go on to make that same mistake again
And listen to me honey

I'm walkin out the door, tellin you good-bye
I can't take it no more
It's your time to cry - oh it's your time to cry

Mmh mmh, it's all over - your time to cry, it's all over
Your time to cry, it's all over...
It's all over - it's all over
I'm walking out the door tonight, can't stand it no
longer
I can't stand it hear the telephone ring, it's breaking my
heart
I'm leaving home...
