Alright

Baby, you're alright

Ooh honey, you're alright

Farther on down the road

You will accompany, oh yeah

Farther on down the road

You will accompany, oh yeah

When I think back

Your love was like a sun

I don't remember the cold days

I just remember the warm

Farther on down the road

Girl, you will accompany, oh yes, you will

If a fusing life that I had before

I'd rather be, oh yeah

I'll be glad to learn from you and I know, good and well,  
honey

You'd be glad to learn from me, oh yeah

If we get down and things get sad

We can cheer up each other

And [Incomprehensible] things just ain't that bad

If a fusing life

That I'd had before, girl

I'd rather be

I'm happy

As long as you're with me

I don't have to worry

I love, I love you

Day by day

One step, one step at a time

You gave me so much love

Just an ease this old aching heart on mine, oh yeah

I don't know where they came from

And I don't know what they might say, woman  
You always been in my heart

Oh, day by day  
It's the magic of kindness  
Flowing all the time, that's all love is

Farther on down the road  
Girl, you will accompany, oh yes you will  
I don't have to worry, baby  
I do believe you'd love me  
You'd love me, you'd love me  
You'd love me, you'd love me  
You know I'd love you too, honey  
We don't have to worry

Farther on down the road  
Every thing gonna be alright  
Alright, alright, alright
