Ahh, you said a bad word  
I'm gonna tell your mama on you, huh  
She gonna whip you, too, huh  
Yeah, that's what's she's gonna do

Get down at your bad self  
Talking that bad talk  
Saying them bad words

You said a bad word  
You'd better take it back  
'Cause good little girls  
Don't talk like that

And if I told your mama  
What you said  
She'd make you come in the house  
And go to bed

But now, wait a minute  
We can make a deal  
If you do what I tell you  
I won't tell your mama on you

Let me whisper in your ear  
I don't want everybody  
Listening to our business  
Come here

Are you gonna do it?  
Huh, huh, huh?  
Are you gonna do it?  
Huh, huh, huh?  
Are you gonna do it?  
Huh, huh, huh?  
Are you gonna do it?  
Huh, huh, huh?

You said a bad word  
And don't you forget  
That you're not really

In the clear yet

'Cause any old day  
And any old time  
I just might  
Wanna change my mind

Like right now

Wait a minute  
Baby, we gotta make another deal  
'Cause that last deal we made  
Is gone bye-bye  
Let me whisper in your ear some more  
I don't want everybody  
Listening to our business  
Come here

Are you gonna do it?  
Huh, huh, huh?  
Are you gonna do it?  
Huh, huh, huh?  
Are you gonna do it?  
Huh, huh, huh?  
Are you gonna do it?  
Huh, huh, huh?

Well, come on round the house

You said a bad word  
Talking that bad talk, come on  
All them bad words  
Coming out of that pretty little mouth of yours
