Safe and, safe and sound
Your feet on the ground
We only fight on holidays
And anniversaries

Stood at the edge of the water tonight
And i cursed your skyline, your skyline

I think i can swim
The hudson in record time

I liked you better when you were you
Not who you are turning into

Tie a string around my finger to remind me to love you
And when im a country away, I'll be thinking of you
And years from now when i'm sharing a bed with a
body
At least i'll pretend that it's you

Remember shy likeful girl
Naive to the world
