Sitting alone in my room
Cursing what she put me through
Pick me up and let me down
It's just the same old story
Thought I would never move on
But baby you came along
And heal the pain inside my heart
For when she left me lonely

Now I'm believing in faith
It wasn't just a mistake
Cause we were thrown together baby
Now I'm crazy
Whatever thing that you do
I've really fallen for you
Oh, so you say that you love me and

I'll be your everything
And I'll take you everywhere
Girl you won't ever lose my love
You mean the world to me
If I got your honesty
Girl you won't ever lose my love

This time I'm gonna get it right
Won't let you out of my sight
Cause whoever think can do this
Is gonna be there waiting for you
And girl since we've both been hurt
I'm always gonna put you first
I'll give you everything I need to show that I adore you

Girl I'm so glad that you're mine
Don't disrespect what you find
And I know I gotta be witchu babe
And ever since we first kissed
Can't take my mind of your lips
So let me know I can trust you

I'll be your everything
And I'll take you everywhere

Girl you won't ever lose my love
You mean the world to me
If I got your honesty
Girl you won't ever lose my love

I'll be your everything
And I'll take you everywhere
Girl you won't ever lose my love
You mean the world to me
If I got your honesty
Girl you won't ever lose my love

Said girl you won't ever lose my love
I'm looking for faithfulness
I'm looking for honesty
If you give me that
Then you can have what you want from me
I'm looking for faithfulness
I'm looking for honesty
If you give me that
Then you can have what you want from me

I'll be your everything
And I'll take you everywhere
Girl you won't ever lose my love
You mean the world to me
If I got your honesty
Girl you won't ever lose my love

I'll be your everything
And I'll take you everywhere
Girl you won't ever lose my love
You mean the world to me
If I got your honesty
Girl you won't ever lose my love

My love, my love, my love, my love
Never lose my love
My love, my love, my love, my love
Girl I got ya
Come on girl
I wanna show ya
Gots to be my girl
