I saw the fog settle  
I just don't know when  
Just as mysterious  
You came in  
Undeniable  
Now I see so clear  
Perfect One  
Sweep away my fears  
Now I know  
Your sweetest mercies flow  
When all has let go

[Chorus]  
Goodbye cold night  
I welcome this warm light to my soul  
Into my soul  
I dropped the hard load  
To walk the high road to your heart  
To where you are

When I woke that morning  
It was then  
I noticed the shift  
And change began  
Willing One  
More than I can know  
Father of Lights  
Illuminate my soul  
Until every part of me  
Gives way to Your glory  
Oh Jesus shine in me
