See you try to eavesdrop on the heat rock
Please stop 'cause only one know where are...
I'm sort of like be cops in the street I
I walk around with a mean sixteen got
Jean drop off my ass with my kicks got
Newspaper feel snug 'cause that mean not
But I really hope you skin not
But she's pop how your body fin in the drop like tic tac
I want cut at the slur at my team hot
I rob a pen pot got my gluck to sling shut
And the ladies I see you looking
Your party in my head and don't wake up in Brooklyn
Yeah what, I'm pretty sure you heard that
This usually the sound before a verse that
Keep these rappers all timmy when I speak
Let me end this like dallis I'm finish with the heat, auh

Chorus:

Feel so, feel so good
Feel so, feel so good
Feel so, feel so good
Feel to me, feel to me
Feel so, feel so feel so good
Feel so, feel so good
Feel so, feel so good
Feel to me, feel to me

It's a price sunny day
Think I bring a little money out to play
And finish up this... I put this six sun on the way
Got the ring loud to their doors gone
I'm just looking out some boodie
I pock in front of the Gucci
Free those meet Louie, be thug in the...
If anybody wishin they was us
Hatin under their breath 'cause they whisper and
getting touch
New York niggas just though like oh wood
The front of the mustang we keep it so hood
We thur we clutch bangs and that whole woods
Stop your evening but this evening feel so good

So nah, I don't want the drama
I just match and wanna
And there's no way her mouth could become my baby
mama
I'ma stop a new... get a fresh cup and pick a brain
And get brain if it's cool she might get sexed up

[Chorus:]

Please stop there's only one or two spot
I'm one quarter at the slaughter and my team hot
Please stop there's only one or two spot
I'm one quarter at the slaughter and my team hot
