Me, I'm just a singer, though I may be well-known  
The truth is I'd be nothing without the power of a song  
I've been blessed with fame and fortune, oh but in the  
end  
A song's what I wish I could've been

#### Chorus

A song lives forever and never ever dies  
Sings enemies together and touches so many lives  
Words and melody will always be long after we're  
gone...  
Oh, how I wish I could live the life of a song

I could mend the broke and wounded, I could prove  
that love is real  
And take someone from China to a Carolina cotton field  
I could comfort every soldier, hum all the homeless  
home  
I could change the world if I was just a song

#### Repeat Chorus

#### Instrumental

There's an end for me, it's my destiny  
But this song will carry on... and it's just three minutes  
long  
Oh, how I wish I could live the life of a song  
Oh, how I wish I could live the life of a song
