

Joey & Rory "That's Important To Me"

Visit "[That's Important To Me](#)" on MotoLyrics.com

Not planning our day around a TV set
Paying our bills and staying out of debt
That's important to me
That's important to me
Openin' the windows and lettin' in air
Holding hands when we're saying a prayer
That's important to me
Yea, that's important to me
Having somebody to share my life
Loving my husband, and being a wife
And the very best mother I can be
That's important to me

Telling the truth, and being real
Feeding my family a home cooked meal
That's important to me
That's important to me
Planting a garden and watching it grow
Keeping it country on the radio
That's important to me
Yea, that's important to me
Always having you to hold,
Being beside you when we grow old
And they plant us 'neath that big old tree
That's important to me
Always having you to hold

Being beside you when we grow old
And they plant us 'neath that big old tree

Believing our dreams will take us somewhere
Still bein' ourselves if we ever get there
That's important to me
That's important to me
Yea, that's important to me
That's important to me

That's important to me
That's important to me
