The magic is in you

When it's dark - outside  
Find my house - tonight  
When it's cold - outside  
Find me here - That's right

When you're down - and blue  
Come to me - into the crew  
Move on up - get on the floor  
The magic in you - is the key to the door

One step back - two steps ahead  
Two steps back - is driving you mad  
Three steps back - two steps beyond  
Don't hide away - come and get on the front yeah

Refrain:

WHOOHA, WHOAHO, the magic is in you  
WHOOHA, WHOAHO, no matter what you do  
WHOOHA, WHOAHO, and if you're feeling blue  
WHOOHA, WHOAHO, the magic is in you

When you're sad - then cry  
Free your soul - and fly  
There's no shame - on you  
Just be pure - and true

Luck and joy - in time  
Comes to you - so fine  
Move on up - get on the floor  
The magic in you - is the key to the door - yeah

One step back ...
