I wasn't raised where the gulf winds blow  
Where the cotton grows fast and the drawls are slow  
I ain't from Dixie but in my heart I know  
I'm a southern girl

When I talk to my mamma I always say yes ma'am  
And like Rhett told Scarlet I don't give a damn  
What state I was born in I know I am  
A southern girl

Chorus

It's in my blood it's in my soul  
It's where the man I love and I are gonna grow old  
When I go to heaven I'm gonna leave this world  
A southern girl

It's a beautiful place where I came from  
Every now and then I still miss it some  
But you live here long enough you become  
A southern girl

I listened to country since I was two feet tall  
I got a picture of Dolly hangin' on my wall  
Like grits and sweet tea I swear ya'll  
I'm a southern girl

Repeat Chorus

I'm gonna live out the rest of my days  
A northern born and raised... southern girl
