(verse) you know that i...  
I gave my best to you,  
And me can't you see  
I did it all for you.  
So where did we go wrong?  
Why do we have to sing this song?  
Girl, with me you know belong.

(chorus) and I'll never love  
The way that I loved you  
And I'll never kiss  
The way that I touched you  
I did all for you  
And I'll never love that way again.

(verse) girl, it seems to me  
You've been gettin' on  
And it's plain to see  
You didn't cry for long.  
So tell me why must we be  
Apart for us to see  
That we could never ever  
Love this way again.

(chorus)

(bridge) can't we try again?  
Does it rally have to end?  
Can we reach down deep inside-  
Find the strength to make this love survive-  
Oh girl, I did it all for you  
If you believe in true romance  
Can we give it one more chance?

(chorus)
