Every day I lie awake  
And think to myself  
How can I change the world

What can I do to make a change  
What can I do to make a difference

We need to make a change for once in our lives  
We need to change the world

We can do this if we all work together  
Change the world forever

We can save lives and prevent death and hunger  
If we just stop and think  
We can make a change in just one blink

So come on let's make that change  
Let's change the world  
Make the world a better place  
For you and me
