This is the national anthem of love  
Stepped into the car five words and your wrong  
She wants to go home  
Can't remember a word you said all you know is  
you're dead  
If you don't straighten things out  
And you know you're dead if you don't  
So baby if you wanna get some

*[Chorus]*

Love, if you make it right you can stay all night  
If you get it wrong, you better fix it  
Love, if you keep it real it'll make you feel  
In a million ways you never felt before  
This is the superbowl of love  
You wanna play but it's just too rough and you  
wanna go home  
Just remember it's only a game  
Win or lose no one's to blame, would you rather be  
alone  
And you know you don't  
So baby if you wanna get some

*[chorus]*

She's gone  
You're wrong  
New dawn  
It's on  
Baby believe me when I say  
It don't matter anyway  
'Cause we got love (love, love, love, love)  
It's all we got

*[chorus]*
