Chorus:

Dont you ever wish
You were someone else
You were meant to be
The way you are exactly
Dont you ever say
You dont like the way you are
When you learn to love yourself
Youre better off by far
And I hope you always stay the same
Cause theres nothing bout you I would change
I think that you could be
Whatever you wanted to be
If you could realize
All the dreams you have inside
Dont be afraid
If youve got something to say
Just open up your heart
And let it show you the way

Chorus

Believe in yourself
Reach down inside
The love you find will set you free
Believe in yourself
You will come alive
Have faith in what you do
Youll make it through

Chorus

Dont change
