Christmas in California
May not be like the ones you know
When you look around,
You may not see snow,
You may not see holly,
Or frosted windowpanes
Or icicles glistening like silver candy canes

But Christmas in California
Is a special one to share
Moon gleams on palm trees
And Christmas lights are there
Sunlight on the blue sea
And carols in the air
It's Christmas in California
And Christmas dreams are everywhere

You may not see holly,
Or frosted windowpanes
Or icicles glistening
Like silver candy canes

But Christmas in California
Is a special one to share
Moon gleams on palm trees
And Christmas lights are there
Sunlight on the blue sea
And carols in the air
It's Christmas in California
And Christmas dreams are everywhere
