Honey come love me  
don't get up so soon  
morning is breaking  
but I can't forget the moon

Oh, what a love night  
a love night we had  
you were so gentle,  
you made me feel so glad

Honey please, let's don't get up  
plenty of hours in the day  
to do all the things that have to be done  
can't I convince you to stay?

I can't get over a magical night  
I wanna keep it all through the morning light  
I'll keep this night in my heart through the day  
happy and knowing another is on it's way

Honey please, let's don't get up  
plenty of hours in the day  
to do all the things that have to be done  
can't I convince you to stay?

Honey come love me  
don't get up so soon  
morning is breaking  
but I can't forget the moon
