"The Christmas Star"

I see a Christmas Star
I know it's shining where you are
Filling you with it's light
And all the love I feel tonight
Though we are far apart
You are glowing in my heart
Just like the Christmas Star
That shines in the Christmas sky
Love is the Christmas Star
That shines in the Christmas sky

[Instrumental]

Though we are far apart
You are glowing in my heart
Just like the Christmas Star
That shines in the Christmas sky
Love is the Christmas Star
That shines in the Christmas sky
