Hi  
Girl you just caught my eye  
Thought I should give it try  
And get your name & your number  
Go grab some lunch & eat cucumbers  
WHY, DID I SAY THAT?  
I don't know why.  
But you're smilin' & it's something I like  
On your face, yeah it suits you  
Girl we connect like we have bluetooth

I don't know why  
I'm drawn to you  
Could you be the other one so we'd equal two?  
And this is all based on a lucky chance  
That you would rather add then subtract

You & I  
Could be like sonny & cher  
Honey & bears  
You & I  
Could be like aladdin & jasmine  
Lets make it happen

La La's

Hey  
How've you been?  
I know that it's been awhile.  
Are you tired cause you've been on my mind  
Runnin' thousand & thousands of miles  
Sorry, I know that line's outta style  
But you  
You look so beautiful on this starry night  
Loving the way the moonlight catches your eyes & your smile  
I'm captivated  
Your beauty is timeless never outdated

I don't know why  
I'm drawn to you  
Could you be the other one so we'd equal two?

And this is all based on a lucky chance  
That you would rather add then subtract

Babe  
It's been 3 years since that special day  
When I asked you on our first date  
I guess it's safe to say
