(You know you got me)  
You know you got me  
(You know you got me)  
You know you got me  
(You know you got me)  
You know you got me  
(You know you got me)  
You know you got me

Baby the nights are cold  
Without your arms to hold  
I need you by my side  
Every day every night & all the time  
Your the dimple in my cheek  
& you; make my knees go weak  
I'm lost without your love  
Your the light shining bright from high above

[Chorus]  
Cuz your love is one in a million  
& without; your love I'd be sinnin'  
& your; love is one that I treasure  
Come back and I'll dedicate forever

Baby the days are tall  
Without your cheek to pull  
I need you I'mma say  
Every second every minute every hour every day

Your the one that's in my mind  
Leaving all other thoughts behind  
I'm goin' out of my head  
Cuz without you my life feels so dead

[Chorus]  
Cuz your love is one in a million  
& without; your love I'd be sinnin'  
& your; love is one that I treasure  
Come back and I'll dedicate forever
