You really are revolting
You've grown up kinda strange
You say the most peculiar things
As if you were deranged

Please don't cause no trouble
Please don't talk that way

We sent you to the finest schools
You threw it all away
And now you think you can act a fool
Still be laughing at the end of the day

Please don't cause no trouble

Please don't be so strange
Don't be so strange
Don't be so strange
Don't be so strange

You're like a boat without a rudder
You got no wind in your sails
You're gonna wind up face in the gutter
You can't live by just heads or tails

Don't be so strange (Don't talk that way!)
Don't be, don't be so strange
