

Joey Ramone "See My Way"

Visit "[See My Way](#)" on MotoLyrics.com

Need a light to see my hand and I can't help it if I
stumble

Over those things that I've set before me

Wanna see, see my way

Need a friend to help me through when I'm down

Pick my body up and carry me home, take me home

Make a point of watching my life I can see its been so
wrong

Climbing mountains without even looking

Want to see, see my way

Need a friend to help me through when I'm down

Pick my body up and carry me home, take me home

Need a light to see ahead and I can't help it if I stumble

Over those things that I've set before me

Wanna see, see my way

Need a friend to help me through when I'm down

Pick my body up and carry me home, take me home
