I see a boy down on the corner he has nothing to his
name
I see the dreams that we can follow and die for just the
same
And I see someone I believe in through hard and
troubled times
If I ever loose my way yeah you're always a friend of
mine

Then you step out in the big world take the chances
that you can
I see the sweat I see the tears yes, brotherhood of man
And I see someone I believe in through hard and
troubled times
If I ever loose my way yeah you're always a friend of
mine

Then you learned about your people (then you learned
about your people)
Some are weak and some are strong
Some might stand up for you do anything for you
Others might do you wrong

And I have someone I believe in through hard and
troubled times
If I ever loose my way yeah you're always a friend of
mine
Yes you are

How I used to long for happiness whatever it would
take
How I'd die for that old true love make no mistake
How I used to think all that glittered was gold and all of
that was mine
Now all I have is this moment hoping it's never gonna
pass me by
Pass me by

Now did you find as you went searching all that you
were looking for
And has time began to heal you well I got I got more
than I bargained for

And I see someone I believe in through hard and
troubled times
If I ever loose my way yeah your always a friend of
mine
Oh yes you are
If I ever loose my way your always a friend of mine
Friend of mine
