

## Joey Tempest "Always On The Run"

Visit "[Always On The Run](#)" on [MotoLyrics.com](#)

It's the way we live and it's killing me  
And the silence here is deafening  
Everything is just a lie until you tell the truth  
There's got to be another day

We were always on the run  
I was always leaving you, you leaving me  
Now you never cross my mind  
Sometimes

I just know the rain won't change a thing  
I'm already lost to sugar and caffeine  
It's these days in between I never understand  
There's got to be another day

We were always on the run  
I was always leaving you, you leaving me  
Now you never cross my mind  
Sometimes

It's the way we live and it's killing me  
And the silence here is deafening
