(Leslie Winn Satcher/Max T Barnes)

Well it's 9pm, four hours of overtime  
I'm not working my way up the corporate ladder  
Just a hard hat on the line, I'm just a hard hat on the  
line  
Well I'm dog tired and draggin  
But I'm gettin my second wind  
These boots were made for dancin  
And kickin back with friends

Loadin dock, punch the clock  
Crank the truck, kickin dust  
Gonna paint th whole town red  
I ought to put these tired old bones to bed  
But I'm livin it up  
I can sleep when I'm dead

Time's way too short  
They ain't makin anymore  
I'm havin fun  
My workin day is done  
I ought to put these tired bones to bed  
But I'm livin it up  
I can sleep when I'm dead

I know a place that's open all night  
They got a sawdust floor and flashing neon light  
They got a flashing neon light  
They got a flashing neon light  
They know me cause I'm sure there alot  
And nobody takes my favorite parking spot

Loadin dock, punch the clock  
Crank the the truck, kickin dust  
Gonna paint the whole town red  
I ought to put these tired old bones to bed  
But I'm livin it up  
I can sleep when I'm dead

Time's way too short

They ain't makin anymore  
I'm havin fun  
My working day is done

Time's way too short  
They ain't makin anymore  
I'm havin fun  
My workin day is done  
I ought to put these tired bones to bed  
But I'm livin it up  
I can sleep when I'm dead

I ought to put these tired old bones to bed  
But I'm livin it up  
I can sleep when I'm dead  
I ought to put these tired old bones to bed  
But I'm livin it up  
I can sleep when I'm dead  
I'm livin it up  
I can sleep when I'm dead  
I;m livin it up  
I can sleep when I'm dead  
Livin it up  
Livin it up  
Livin it up  
I can sleep when I'm dead
