Oh ohoh oh ohoh oh ohohoh

I heard her voice through diamond glass  
My lady she was near  
And I reached my arms  
And closed my eyes  
Oh my heavenly dear

The music played a Tchaykovsky triad  
In perfect harmony  
To re-join, what's lost and late  
In the rhythm of three

So we danced, we forgot  
What was real and what was in our minds  
Side by side, we lived our lives

(chorus)  
When the heavenly breathe surrounds us  
Into an earthly air  
We will dance like lovers  
And fly anywhere (anywhere)

Nature was told to fall  
But twisted the rules from God  
But the world kept on turning  
While heaven went side by side

Oh ohoh oh ohoh oh ohohoh

She smiled and said  
Don't be afraid  
When I touch your heart  
Though doubts are old  
It's fears that kills  
The beautiful part

That we call love  
And believe  
So keep on dreaming boy  
And lead me through  
The endless room

In the moves that I enjoy

So I tried for a while  
To lead the world right by my side  
Closed my eyes till I saw the light

(chorus)

I can hear myself laughing and crying  
When dancing is all about to end  
When believing is facing the missing from heaven  
And I touch her again  
When I loose my mind

Oh ohoh oh ohoh oh ohohoh

So we danced, we forgot  
What was real and what was in our minds  
Side by side, we lived our lives

(chorus)

So I'll always close my eyes (you close your eyes)
