Hey,
You've got to let me know
I don't know where to go from here
You've got me on my knees
You've got me on a leash now
Babe

You've got to stop the show
I'm gonna hit an all time low
Your gun is to my head
I'm hanging by a thread now
And every time I call you, you cut me off
I'll take that as a sign

Killer style, killer smile, got me wild
Don't you know that I surrender
But now it's killing me
One of a kind, killer mind, got me blind
Don't you know that I surrender
But now it's killing me
You're killing me

Hey,
What are you waiting for?
Why don't you shut the door you slammed
You're running with the devil
A cause without a rebel

I'm already underground
Still I'm going
Down down down
And you're so high
So high above me

And every time I see you
You turn around
Well, I take that as a sign

Killer style, killer smile, got me wild
Don't you know that I surrender
But now it's killing me
One of a kind, killer mind, got me blind

Don't you know that I surrender
But now it's killing me
You're killing me
Oh, you're killing me

I'm trying hard
You're hard to please
I've had it with the way you tease
I've got to find a cure for this disease

Killer style, killer smile
Ooh
Killer style, killer smile, got me wild
Don't you know that I surrender
But now it's killing me
One of a kind, killer mind, got me blind
Don't you know that I surrender
But now it's killing me

Killer style
(Killer smile, got me wild
Don't you know that that I...)
Killer smile
One of a kind, killer mind, got me blind
Don't you know that I surrender
But now it's killing me
You're killing me
