Ya think you can rule my life
Ya think you can tell me what to think
Ya think to can tell me what to wear
But I know you are totally wrong!

This is my life and only
This is my day, and my night
And you don't get to rule my life

Ya think you can tell me what to like

Ya think you can tell me what to say
Ya think you can tell me who to like
But I know you are out of your mind

This is my life and only mine
This is my day, and my night
And you don't get to rule my life

Yeah! You don't get to rule... my life!!!
