Way across town a phone rings off the wall  
If you know he ain't home why do you keep callin'  
You're gonna drive yourself crazy and you know that  
it's true  
It's making you wild and blue

Wild and blue it's no wonder look at the things that you  
do  
They could just take you up to yonder you're already  
wild and blue

In somebody's room on the far side of town  
With your mind all made up and the shades all pulled  
down  
Someone is trying to satisfy you  
He don't know you're wild and you're blue

Wild and blue it's no wonder...  
[ fiddle ]  
It's four in the morning and you're all alone  
With no place to go why don't you come home  
I'll be right here baby waitin' for you  
I know you've been wild and blue

Wild and blue it's no wonder...  
Wild and blue it's no wonder...
