(John W. Wiggins/Anthony Smith/Michael Garvin)

The season for the rodeo is over  
And he's usually back home this time of year  
But I haven't heard a word since  
He called me from Santa Fe  
Something in his voice said you were stealing him away

New Mexico - have i lost him to your sunset  
Do your mountains life him higher than my love  
New Mexico - guess we'll have to wait and see  
If tomorrow's gonna bring him back to me

He said he'd never seen a place more beautiful

And he talked of maybe moving there someday  
Where the stars in the sky shine like diamonds every  
night  
I wonder if he sees those stars in someone else's eyes

New Mexico - have i lost him to your sunset  
Do your mountains life him higher than my love  
New Mexico - guess we'll have to wait and see  
If tomorrow's gonna bring him back to me
