Cigarettes were a quarter then Bobby-socks and jeans  
were in  
Elvis sang the songs that we loved so  
And the most important thing to us was keeping gas in  
my old truck  
So I could take us to the drive-in show

Then graduation finally came Uncle Sam called me  
away  
You married someone else while I was gone  
But I kept your letters all these years and I can't help  
but shed a tear  
When I read the words you wrote me years ago

Baby I'm yours I'll love you always  
I'm gonna stand by you until the end of time  
Remember all of the good things that we shared  
together  
Signed love Betty 1959

I never will forget the day when you and I went all the  
way  
I was the first for you and you for me  
I've still got the truck that we loved in it takes me back  
there now and then  
Back to '59 in my memory

And baby I'm yours I'll love you always...
