(Billy Kirsch/Allen Shamblin)

Before you even call my name  
I will be there by your side  
When your standing at the rivers edge  
I will be the bridge you find  
If you said, "Meet me now beyond the stars"  
I'd pack my bags I'd go that far  
With the strength that only love commands  
I give my heart

Keep it with you if you have to go  
It will see you safely home  
Wrap it 'round you like your favorite coat  
When your caught out in the storm  
If you lose faith in who you are  
I'd bring you back, I'd go that far  
With the strength that only love commands  
I give my heart

When all that's left of me  
All the words in this song  
I know this love will carry on  
With the strength that only love commands  
I give my heart
