I wouldn't count the times
We talked about tomorrow
An' I wouldn't sing the lines
If someone played our song

On lonely nights like this
When I need a friend
You'd be the last one I'd call
Oh, if I had any pride left at all

An' I wouldn't keep a place
Just to set your picture
Reach out to touch your face
And feel you in my arms

An' I wouldn't be here now
Parked outside your house
Not ashamed to crawl
Oh, if I had any pride left at all

Only a fool, it still be wearing this ring
Ringing your front doorbell

An' I wouldn't let my heart
Stay wrapped around your finger
An' I wouldn't fall apart
When you open the door

Like all the other times
When your eyes met mine
These teardrops wouldn't fall
Oh, if I had any pride left at all

Oh, if I had any pride left at all
