"Heart Broken Down"

Visit "[Heart Broken Down](#)" on MotoLyrics.com

She said, "Climb on in, let's take a drive"
Man, she sure took me for one big ride
She left me stranded way outside of town
Now I'm out on love's highway and I'm heart broken
down

She was smooth and streamlined, she was built for
speed
She had all the options that a man could need
She kept her motor purring and the top pulled down
Now I'm out on love's highway and I'm heart broken
down

Heart broken down, left by the side
Feeling way too blue to catch a ride
Now my heart's in pieces, scattered on the ground
Out on love's highway and I'm heart broken down

It's a one-way road and there's no way back
And love's highway ain't on the map
Once you get lost, you might never be found
Out on love's highway when you're heart broken down

Heart broken down, left by the side
Feeling way too blue to catch a ride
Now my heart's in pieces, scattered on the ground
Out on love's highway and I'm heart broken down
Out on love's highway, she ain't nowhere around
Out on love's highway and I'm heart broken down
