Ohhh, ohhh,
I'm only going by where you've told me,
Girl you know that I will never let you down,
And we both know that where we supposed to be,
I was the one that you nobody else was around.

Chorus:

Get it up, girl I was only the best for you
Get it up, I'll introduce you to the love is true.
Girl let go, ain't no point to stay and girl you should be
with me,
Girl let go, he ain't no good for you, I'm telling you, girl
just come with me
Girl let go, it ain't hard to tell, I know where you wanna
be,
Girl let go, girl let go, girl let go.

What's the .. and take you the lead,
I know you put it up, put it, put it down,
Never was blind but open your eyes and you'll see,
What you're waiting for just do it right now.

Chorus:

Get it up, girl only I was best for you,
Get it up, I'll introduce you to the love is true.
Girl let go, ain't no point to stay and girl you should be
with me,
Girl let go, he ain't no good for you, I'm telling you, girl
just come with me,
Girl let go, it ain't hard to tell, I know where you wanna
be,
Baby let go, let go, let go.
Girl let go, ain't no point to stay and girl you should be
with me,
Girl let go, he ain't no good for you, I'm telling you, girl
just come with me,
Girl let go, it ain't hard to tell, I know where you wanna
be,
Baby let go, let go, let go.

Girl I don't mean it if you hate that, but I know that I

And calm down the days to
Girl you know you shouldn't ever told me,
How you put it, put it down, down that I'm around,
'cause I know you won't me have it to let it go.

Chorus:

Girl let go, ain't no point to stay and girl you should be
with me,
Girl let go, he ain't no good for you, I'm telling you, girl
just come with me,
Girl let go, it ain't hard to tell, I know where you wanna
be,
Girl let go, girl let go, girl let go.

Girl let go, ain't no point to stay and girl you should be
with me,
Girl let go, he ain't no good for you, I'm telling you, girl
just come with me,
Girl let go, it ain't hard to tell, I know where you wanna
be,
Girl let go, girl let go, girl let go.

You could be my queen.
I could be the one girl.
