Say, hey little girl take me by the hand  
Walk with me down this boardwalk one last time again  
We see those pretty pier lights, hear those carnival  
sounds  
WeÂ're gonna stop right at the top tonight, when the  
ferris wheel goes Â'round  
You say that I've been restless, you don't understand  
Tomorrow I'll be leavin' on the morning train  
Gonna leave this candy apple town behind  
To get out while I still can  
GoinÂ' to New York city, with this guitar in my hand  
Been wishinÂ' on these stars to long, been playinÂ' in  
these bars to long  
Been hold up in your arms to long, been a prisoner of  
my heart to long  
GoinÂ' to New York city, gonna find out where I stand  
And I'll be walking down the broadway, with this guitar  
in my hand

### Instrumental Break

Well I sing for these tourists, Â'bout a dream life on the  
water  
When the dream it gets broken, this life gets harder  
and harder  
Gotta leave this candy apple town behind  
To get out while I still can  
GoinÂ' to New York city, with this guitar in my hand  
Been wishinÂ' on these stars to long, been playinÂ' in  
these bars to long  
Been hold up in your arms to long, been a prisoner of  
my heart to long  
GoinÂ' to New York city, gonna find out where I stand  
And I'll be walking down the broadway, with this guitar  
in my hand
