We fight together, we ride together
Right now we're gonna get loud together
(Chain Gang is the click)
Is Trademarc the truth?
This is a basic thuganomics
I'm raining fire like Apache helicopters

Prepare for the worst, we, commin' thunderin'
Opposition wonderin' how they get the drop on us
We set up and lock corners, try to put a stop on us
We react so quick the five O couldn't even call the cops

Steady put the rocks on us but my chain stay still
Still my name stay real, spit the flame they feel
I know the game take skill that's why the brains stay ill
We 'bout to change the deal, keep the champagne

Your phony flows, we stopping rise own the game
Y'all is leasing with the option to buy

Your flight been delayed, kid you not gonna fly
We got the army, throw your hands to the sky

It's the same game that put Chain Gang in the street
Got goons with a few hundred clips in the heat
It seems sex, violence and money dyin' to meat

I found writin' rhymes all the time was soothin'
Don't lose me, never let the truth allude me
His skills I respect, I expect you dolly

Some got gifts man but reflect it crudely
That's why I keep it real like rejected movies
What now and no what was or would be
Only sing along if you understood me

The seen hip hop dawg ain't were it could be
Trademarc will take y'all right where it should be
You actors and that's where it stops
